Summary.

Innovative Computer Scientist with expertise in cybersecurity, data protection, and risk management. Skilled in identifying and mitigating security threats, with experience in encryption, firewalls, IDS, and vulnerability assessments. Proven ability to develop robust security systems and solutions to safeguard organizational assets.

Work Experience

Ca' Foscari University

Venice - Italy Jun. 2024 - Current

INTERNSHIP Analyzed and tested the LiSA (Library for Static Analysis) plugin for taint analysis, identifying vulnerabilities and tracking data flow.

- Collaborated with development to improve taint tracking accuracy in database queries. Applied static analysis to assess security risks and prevent data leaks.
- Provided recommendations for enhancing data sanitization and security protocols.
- Documented findings and contributed to security reports to enhance database integrity.

Metropolitan City of Venice, IT Sector

Venice - Italy

Nov. 2020 - Feb. 2021

INTERNSHIP

- Created thematic tables for the General Territorial Plan (PTG) to support urban planning.
- Mapped bike-sharing station locations and secondary schools in Venice using GIS tools.
- Managed and organized geospatial data for accuracy and consistency in territorial development.
- Collaborated with urban planners and local authorities for effective data-driven decision-making.
- Delivered actionable insights through visualized maps and geospatial reports
- Used QGIS to map 30+ bike-sharing stations, improving urban planning efficiency.

Projects

THESIS AUTHOR

Master thesis, LiSA taint analyzer (Dataset)

Ca' Foscari University - MSc

Jul. 2024 - current

Make a study on the taint analysis on dataset.

Ca' Foscari University - MSc

SOFTWARE DEVELOPER, ANALYZER

In GO programs check the correctness of code.

Apr. 2024 - Giu. 2024 Ca' Foscari University - MSc

Web app performance evaluation (Tsung) - Database movies

SW Correctness (Go Code Analysis) - Static code analysis

SOFTWARE DEVELOPER

May 2023 - Sep. 2023

Face Detection (Java and OpenCV) - Viola and Jones algorithm

Evaluate the preformance of a web application created to search movies in a database.

SOFTWARE DEVELOPER, FULL-STACK DEVELOPER, SECURITY ENGINEER

Created a Face Detection program using the Viola and Jones Algorithm

Ca' Foscari University - MSc

Nov. 2021 - Jun. 2022 Ca' Foscari University - MSc

Bachelor thesis - General Territorial Plan (PTG)

Database Web App project - Team Project

THESIS AUTHOR

Collaboration with the agency for the creation of thematic maps for the General Territorial Plan (PTG).

Nov. 2020 - Feb. 2021

Ca' Foscari University - BS

Oct. 2019 - May 2020

SOFTWARE DEVELOPER, FULL-STACK DEVELOPER, SECURITY ENGINEER

Mine Hunter Robot (Lego Mindstorm) - Team Project

Build a robot, constructed with Lego Mindstorm and implement the program to search mines in a game plan efficiently.

Ca' Foscari University - BS

Jun. 2019 - Aug. 2019 Simulate a Web App of an e-commerce specialized in videogames. The application have several functions: the management of the users,

the games and the acquisitions. **Arduino projects**

SOFTWARE DEVELOPER

Simulation Social Network

ITIS C. Zuccante Sep. 2014 - Jun. 2017

I built several Arduino projects such as the simulation of a semaphore using the RGB leds, simulation of a physical gate, numeric keypad, display lcd.

Personal project 2024

I built a simulation of a social network similar to Facebook, focusing on core features like user profiles, posts. The project included a backend built with Python. I implemented key functionalities such as user authentication, real-time updates, and a responsive design for desktop. This project enhanced my understanding of full-stack development and database management, while also improving my problem-solving and debugging skills.

Python projects

DEVELOPER

I built several projects in Python such as a calculator, a cryptographic converter using different ciphers, a password generator, an indentator of the code of several languages (such as Python, Java, C++, Scala, Javascript, Ruby). I implemented also a simulation of several games such as minesweaper, sudoku and hangman game.

Personal project

DATE: DEC. 2024 PATRICK FABBIANI ... CURRICULUM VITAE

Education

Ca' Foscari University Venice, Italy

MSc in Computer Science - Cybersecurity

Sep. 2022 - Mar. 2025 • Specializing in cybersecurity, with a focus on network security, cryptography, and risk management.

Courses include Advanced Network Security, Cryptography, Cyber Threats and Vulnerabilities, and Ethical Hacking.

Currently conducting research on emerging cybersecurity threats and solutions.

Ca' Foscari University

BS IN COMPUTER SCIENCE - DATA SCIENCE

Venice, Italy Sep. 2017 - Jun. 2022

· Focused on data analysis, machine learning, and statistical modeling.

ITIS C. Zuccante

Venice, Italy

HIGH SCHOOL DIPLOMA IN COMPUTER SCIENCE

Sep. 2012 - Jun. 2017

• Graduated with a focus on programming, hardware, and software development, gaining proficiency in Java, C and C++.

Skills

Graphic Design Adobe Photoshop

Web Development HTML, CSS

Programming Languages Java, C, C++, Python, Scala, F-Sharp

Microprocessors Arduino UNO **Database Management** PostgreSQL

Data Analysis R, Python (Pandas, NumPy), Tsung

Soft Skills Team Collaboration, Good communication skills, Problem Solving, Leadership, Public Speaking, Adaptability

Organization Project Management, Time Management **Languages** English, Spanish, interest in learning German

Certifications CISCO (CCNA Routing and Switching Introduction to Networks), B2 English certification

Organizational and Managerial Skills Strong organizational skills gained from managing group projects.
